Station 36

Sta36 is in need of proper A/C and Heating, When it was 15 degrees F. we had no heat in the bedroom, EBS delivered 4 small electric heaters. The electric outlets would only support one. When we plugged in the second it would trip the breaker. Living room chairs, energy efficient windows, we have single pane windows with bad glazing. And a luxury item would be a gas grill. Capt. D.L.
